### 1. The universe is about 13.8 billion years old.

This is a difficult concept to grasp, but it's true. The universe is constantly expanding, and scientists estimate that it began about 13.8 billion years ago. That's a lot of time!

## **2. The human body is made up of about 60% water.**

This is why it's so important to stay hydrated. When you don't drink enough water, your body can't function properly. So make sure to drink plenty of water throughout the day.

## **3. The average person spends about 2 hours per day on their phone.**

This is a lot of time! And it's only increasing as we become more and more reliant on our phones. So make sure to take some time each day to unplug and spend time with your loved ones.

## **4. The world's population is about 7.8 billion people.**

That's a lot of people! And it's only increasing. So make sure to be kind to your fellow humans. We're all in this together.

## **5. The Earth is the only planet in our solar system that can support life.**

This is why it's so important to protect our planet. We don't have a backup.

## **6. The human brain is the most complex organ in the body.**

It's responsible for everything from our thoughts to our emotions. So make sure to take care of your brain by eating healthy foods, getting enough sleep, and exercising regularly.

## **7. The speed of light is about 186,000 miles per second.**

That's really fast! And it means that nothing can travel faster than the speed of light.

## **8. The human heart beats about 100,000 times per day.**

That's a lot of beats! So make sure to take care of your heart by eating healthy foods, getting enough exercise, and not smoking.

### **9. The average person has about 100,000 hairs on their head.**

That's a lot of hair! And it's important to take care of your hair by washing it regularly, brushing it, and using conditioner.

### **10. The human body can live for about 3 weeks without food, but only about 3 days without water.**

This is why it's so important to stay hydrated. So make sure to drink plenty of water throughout the day.

These are just a few of the fascinating facts you'll learn in 10 Things You Might Not Know About Nearly Everything. So what are you waiting for? Free Download your copy today!
