In the West, China is often seen as a monolithic entity, a country of 1.4 billion people who are all the same. But as Zhang shows, China is a complex and diverse country, with a long and rich history. The people of China are just as diverse as the people of any other country, and they have a wide range of views on the world.

One of the most striking things about Zhang's book is his willingness to challenge the stereotypes that many Westerners have about China. He

argues that China is not a threat to the US, and that the two countries can and should cooperate on a range of issues.

Zhang's book is a must-read for anyone interested in China and the US. It is a timely and important book that offers a fresh perspective on the relationship between the two countries.
