### Here are a few tips:

1. **\*\*Focus on the most important tasks.\*\*** Not all homework is created equal. Some assignments are more important than others. Figure out which assignments are most important and focus on those first.
2. **\*\*Break down large assignments into smaller tasks.\*\*** If you have a large assignment, it can be daunting to think about doing it all at once. Break the assignment down into smaller, more manageable tasks. This will make it seem less daunting and more doable.

3. **\*\*Set realistic goals.\*\*** Don't try to do too much at once. Set realistic goals for yourself and stick to them. This will help you avoid feeling overwhelmed and stressed.
4. **\*\*Take breaks.\*\*** It's important to take breaks when you're doing homework. Get up and move around every 20-30 minutes. This will help you stay focused and motivated.
5. **\*\*Find a study buddy.\*\*** Studying with a friend can be a great way to stay motivated and accountable. Find a friend who is also taking the same class and study together.
6. **\*\*Reward yourself.\*\*** When you finish a homework assignment, reward yourself with something you enjoy. This will help you stay motivated and make homework more enjoyable.

By following these tips, you can get the most out of your homework without really setting it. You'll be able to focus on the most important tasks, stay motivated, and avoid procrastination.
