In this groundbreaking work, author John Smith argues that America is on the verge of collapse. He points to the growing gap between rich and poor, the decline of the middle class, the rise of political extremism, and the increasing polarization of society.

Smith argues that these trends are not sustainable. He says that if we do not change course, America will soon become a failed state.

But Smith does not end his book on a pessimistic note. He believes that America can still be saved. He offers a number of concrete proposals for

how we can rebuild our country and restore our ideals.

- Hold our leaders accountable

Smith believes that by taking these steps, we can rebuild America and create a more just and equitable society.
